Student & staff perspectives on inclusion and belonging in mobility: research report launch

Inclusion is a priority for the next Erasmus+ programme, but very little hard data is available on the accessibility of the current programme and what measures could be put in place to improve access and participation.

In the course of 2020 the “Social Inclusion and Engagement in Mobility” team has worked to gather answers from over 12.000 students and 750 staff members across Europe and beyond.

Join us on March 31st to learn more about our first research outputs.
